CHURCH ELECTRIC SERVICE RIDER
RIDER SCHEDULE "CR-42I"

Mississippi Public Service Commission Schedule No. 14		
PAGE 1 of 1	EFFECTIVE DATE March 19, 2025	DATE OF VERSION SUPERSEDED June 20, 2022

APPLICABILITY

This rider schedule is applicable only for use in conjunction with General Service Electric Service Rate Schedules GS-LVS, GS-LVT, GSEH-LVS, GSEH-LVT, GS-HV, or GSEH-HV (schedules GS-HV and GSEH-HV are only applicable in combination with Option Two below). A church may select either of the following options on an annual basis for billing electric service supplied through one meter to facilities used on a regular basis for worship services. Only one metered account on the church's premises will be eligible for this rider schedule.

OPTION ONE

Customer will be billed the base charge specified in the applicable General Service Rate Schedule and all energy consumed will be billed at the charge per kWh below; no determination of capacity requirement (demand) will be used for billing purposes. All provisions of the applicable General Service Rate Schedule will be applied except provisions entitled "MONTHLY RATE FOR SERVICE," "DETERMINATION OF CUSTOMER'S MONTHLY KW BILLING REQUIREMENT" and "MINIMUM MONTHLY BILL."

Charge per kWh 10.489 ¢

OPTION TWO

Customer will be billed the base charge specified in the applicable General Service Rate Schedule and all energy consumed will be billed under provisions of applicable General Service Rate Schedule.

Above charges under either option will be discounted 7% by multiplying total amount of customer's bill before adjustments by a factor of 0.93 provided, however, no bill will be rendered for less than the base charge when billed under Option One above. When billed under Option Two above, the minimum bill provision as set forth in the applicable General Service Rate Schedule will apply.
