### Energy-Only Service Option for Customer-Owned Fixtures

At the customer's option, Company will provide unmetered service to customer-owned lighting fixtures on an energy-only basis. This Energy-Only service option does not include maintenance of fixtures, and is available for service to 1) customer-owned lighting fixtures installed after May 1, 2010, and 2) lighting fixtures currently billed under the customer-owned service option (with maintenance) where the type fixture is discontinued as a Company standard fixture, and Company subsequently can no longer provide such maintenance. Company will provide service to lighting fixtures contracted under the Energy-Only service option in accordance with the following provisions:

Customer-owned street, roadway, and general area lighting fixtures which conform to the specifications of Company-owned fixtures may receive energy at the appropriate charges for each size light above. Customer-owned street, roadway, and general area lighting systems which do not conform to specifications of the Company-owned fixtures shall be charged the monthly rate of 2.091¢/kWh for the estimated kWh usage of each unit. Customer-owned equipment must be approved in advance as to electric service accessibility to be eligible to receive service. The customer will provide all poles, fixtures, lamps, photoelectric controls, and circuits up to the point of connection to the Company's supply lines (point of service), and an adequate support for the Company-owned service conductors. The Company will provide an overhead service drop from its existing secondary conductors to the point of service designated by the Company for customer-owned lights. Underground service conductors will be installed in lieu of the overhead conductors at the customer's request and in accordance with the Company's Underground Electric Service Policy. The distribution system providing such service shall serve no other electrical loads except the lighting equipment eligible for this rate.
