

COGENERATION AND SMALL POWER PRODUCTION PURCHASES RATE SCHEDULE "CSPP-6"

Mississippi Public Service Commission Schedule No. 21

PAGE 1 of 2	EFFECTIVE DATE May 27, 2025	DATE OF VERSION SUPERSEDED November 15, 2023
----------------	--------------------------------	---

APPLICABILITY

Applicable for any customer who owns an electric generating facility of 100 kW capacity or less that is operating solely for his own use ("Customer"). Customer desires a permanent electrical connection with Mississippi Power Company's (the "Company") system in order to sell electrical energy to the Company and to secure supplementary service from the Company. The electric generating facility must be a qualified facility ("QF") under provisions of Sections 201 through 210 of the Public Utility Regulatory Policies Act of 1978.

AVAILABILITY AND KIND OF SERVICE

Available on any distribution line of the Company. Customers cannot be concurrently served under the Company's Cogeneration and Small Power Producers ("CSPP") and Renewable Energy Net Metering ("RENM") rate schedules.

RATE FOR PURCHASE OF ENERGY FROM COGENERATORS AND SMALL POWER PRODUCERS

Facility Upgrade Charge

All Customers will pay actual costs to reconfigure metering equipment and any system upgrades needed to accommodate the purchase of customer's excess energy.

Payment for Basic Avoided Energy Cost

The Customer may elect Option A - Standard Rate or Option B - Time-of-Day Rate which are payments representing the Company's basic avoided energy cost applicable to the Customer's type of generating resource. The payment for energy is the per kWh payment by the Company to the Customer for energy delivered to the Company from the Customer.

Payment for energy produced by customers and delivered to the Company under Option A will be measured on a billing month basis and priced on a seasonally differentiated basis. Payment for energy produced by customers and delivered to the Company under Option B will be measured on a billing month basis and priced on a time differentiated basis.

The current Option A and Option B basic avoided energy cost rates applicable to the Customer's type of generating resource are provided on the Company's Basic Avoided Energy Cost Bulletin. The hours for the determination of the time differentiated rates are also set forth in the Basic Avoided Energy Cost Bulletin

STANDBY AND SUPPLEMENTAL SERVICE

Supplementary, backup, and/or maintenance power shall be provided, upon written request from the Customer, under the rate schedule applicable for that class of Customer. Base charges and minimum billing provisions of the appropriate rate shall apply being such rates are now or hereafter approved by the Mississippi Public Service Commission (the "Commission") for such service.

PAYMENT

Statements covering charges and credits for energy received from the Customer and charges for Supplemental Service shall be rendered monthly. All credits will be accumulated and netted against charges on the monthly bill. Bills for any outstanding charges are payable upon receipt. Outstanding credits will be dispersed upon termination of service and closing of account.

GENERAL

Service under this rate is subject to Rules and Regulations approved or prescribed by the Commission, particularly those Special Rules and Regulations governing the application of this rate.
