

Kitchen and Refrigeration

Mississippi Power customers can take advantage of our Commercial 100 Program. This program is designed to help commercial customers with peak demands of less than 100kW reduce operating costs, lower environmental impacts and improve their bottom line.

Maximum rebate for the combination of lighting, lighting controls, heating and cooling and refrigeration upgrades is 60% of the project cost.

MEASURE DESCRIPTION	REBATE/UNIT	REQUIREMENTS
Freezer	\$75/Unit	Measure available under Commercial 500 Program
Refrigerator	\$75/Unit	Measure available under Commercial 500 Program
