

Agreement to decline the Company's installation of Advanced Metering Infrastructure ("AMI") metering equipment for which an AMI meter is the standard ("Opt-Out Customer").

Customers receiving service under this Opt-Out agreement will be charged an Enrollment Charge and a recurring Monthly Charge. The Enrollment Charge is an initial lump sum payment per account.

Enrollment Charge: \$286.00

Monthly Charge: \$44.00

Customers transferring service to a different premise and wishing to remain as an Opt-Out customer in the new location must make a new request for service under this agreement for the new location at the time of the transfer. This transfer of service will not require payment of an additional Enrollment Charge for the new account unless a meter replacement is required. Customers who cancel service under this agreement and later re-enroll for any location would be required to submit another Enrollment Charge.
