

SYSTEM METER UPGRADE (AMI)

Our new meters provide enhanced meter accuracy and the following customer benefits:

- Remote connect and disconnect services
- Improved response time to outages. Meters will automatically notify Mississippi Power when experiencing an outage and when power is restored.
- Convenient online access through MyPower Usage provides daily power usage and patterns, so customers can review and track their power usage over time.

In the future, the new AMI meter will allow customers access to demand response programs, improved energy efficiency options and additional payment and pricing plans, such as prepay.

Mississippi Power

You may choose to opt-out of receiving your new AMI meter.

There is an up-front fee of \$286, as well as an additional monthly fee of \$44 for opting out. The up-front fee covers programming costs, opt-out processing costs, and other necessary expenses required to provide continuing reliable service. The monthly fee will cover the employee labor and vehicle costs for the manual meter reads. If you choose to opt out, you will receive a new, non-AMI meter.

To opt out, complete the opt-out form at mississippipower.com/AMI.
